Gentlemen:

During the Committee of Counsel meeting held in Naples, Florida, on the 27th of February of this year, I presented for consideration a proposal by a subcommittee of the ETS Advisory Group for the establishment of an "institute" to deal with the development, funding, and monitoring of industry-funded research in the area of ETS and indoor air quality. The proposal was taken under advisement by counsel.

I have now received the enclosed letter from Bill Kloepfer summarizing the views of the Tobacco Institute staff concerning the proposal.

I understand that this will be an agenda item for discussion at the next meeting of the Committee of Counsel on Tuesday, March 31, 1987.

With best regards.

Sincerely,

Donald K. Hoel
